My dear Sam,

I am this morn'g in receipt of your telegram of 22nd which I had reached here before the office closed yesterday. but I had gone early to bed as Mrs. Wammans had a congestive chill the preceding ev'g and I was very anxious about her. I found her but little better, if any, but she was much easier this morn'g having had quite a good night. The night before was one of suffering an intense ~~in~~ head pain - which I think was the congested point instead of the lungs - although there is constant bronchial cough yet. Her fever was less this morning and her head much less painful, as quite a quantity of bloody mucus was then discharging. I have wired you that she is again better and that I shall probably be here all of January. I do not yet know whether I can leave her here or take her with me to Arizona or ~~how~~ there at all - but we will see when you reach here. I write now assuming that you will be about or in communication with S. F. for a week or two.

Your helg. from Reno said you had my letters of 8th and 10th. I have a copy of one of tenth to you and think the operator may have misread you. I have no copy of any sent since the 10th and I copy all important letters. I guess that on the last I saw Church in W. from B. and reported every-thing to him up to that time including the ex-pectation of your being here during Holiday. He said he had nothing from you up to that time. I left with him the rough map or sketch of the portion of Green Mt. - but not the letters. I shall advise him now of your delay in arriving and I presume I will soon have other letters from you. Better keep me well advised in advance.

We have had real winter here for several days past. Where is Geo. Redbroke and what is he doing? Is Thomas Chaska mine still running and what are their latest and owed expectations?

Will you see that man in S. F. whose letter I sent you and learn what he knows?
